Welcome from eema	3
Welcome from OASIS	5
General Information	6 - 7
Conference Programme	8 - 12
Sponsor & Exhibitor List	13
Sponsor & Exhibitor Information	14 - 23

Over the past 22 years eema has proactively participated in the communications revolution, maintaining a focus abreast of mainstream initiatives and developments. Our ultimate aim has consistently been a European business environment built upon a foundation

of seamless, end-to-end trust and collaboration, benefiting individuals, businesses and governments alike, and putting Europe at the forefront of innovation.

One of the major challenges for all modern societies is keeping up with and embracing the plethora of social and commercial conventions that are constantly being turned on their head as technology is harnessed to enable us to interact with previously undreamt of immediacy and efficiency; and including the millions of people who meet via the wide range of interconnected social networking sites, for whom the 'virtual' world offers a level of interaction and intimacy unimaginable and often impossible in the 'real' world.

But the inherent transparency of the Internet also renders the requirement for easy and reliable trust systems a non-negotiable imperative. All such systems have at their core a means of securely managing and exchanging trustworthy digital identity information that can be used by trading partners or social contacts throughout Europe and the world. To that end, eema is committed to enabling the interoperability of digital identity systems, and this conference is one of many events that we organise annually to enable all stakeholders to come together to discuss, challenge and plan the way forward.

I would like to thank all of our sponsors and partners for helping us to put together such a comprehensive programme: I hope that you will find it stimulating and will take away new insights and perspectives to bolster your ideas on how to make identity work in the years ahead.

A handwritten signature in black ink, appearing to read 'David Goodman', written in a cursive style.

David Goodman, Chairman, eema

Are you in the know...

Stay in the know with BCS membership

BCS is the leading industry body for IT and communications. We represent today's most dynamic and fast moving industry.

With over 68,000 members in more than 100 countries, BCS is recognised throughout the world.

Join BCS today to extend your professional contacts and access a wealth of knowledge and expertise.

Visit www.bcs.org or call us on 01793 417 424

BCS membership gives you immediate access to:

- A huge online IT and communications library
- Professional recognition with industry leading post nominal letters MBCS & FBCS
- The route to the industry 'gold standard' Chartered IT Professional (CITP)

BCS IS A REGISTERED CHARITY: NO. 292786

Welcome to The European e-Identity Management Conference 2009

Dear Conference Attendees,

On behalf of the OASIS IDtrust Member Section, it is my pleasure to welcome you to The European e-Identity Management Conference. The Member Section is honored to be co-hosting this event along with eema.

We have planned a full program for you over the next two days. The OASIS track will tackle many complex identity management issues at all levels. With the ever increasing open exchange of information and access to online services, companies and governments are exposed to so many more challenges and threats than ever before. The need to aggressively re-define how to manage identity is more of a concern than ever before.

The track we have designed will address a range of security-related risk management issues encountered when conducting business in a global marketplace, including protecting data as it travels across legal boundaries on the boundary-less Internet, in outsourced and cloud-computing environments using multiple identity, authentication and authorisation mechanisms, all while protecting customer privilege and managing legal and privacy requirements.

But we believe the Conference will bring even greater value to participants, because it not only offers a forum for the exchange of ideas, but also provides a neutral playing field for putting those ideas into practice, and for collaborating on solutions to address the real problems that user companies, governments, and industry organisations are experiencing.

Best wishes for a most productive conference,

June Leung, Chair OASIS, IDTrust Committee

Opening Times

Thursday 25 June

eema General Assembly	09.00-10.00
Registration	From 09.30
Network meeting area open	09.30 - 18.15
Conference open	10.30 - 18.15
Conference drinks reception	18.15 - 19.00

Friday 26 June

Registration	From 08.45
Network meeting area open	08.45 - 17.00
Conference open	09.30 - 17.30

eema General Assembly

Thursday 25 June 09.00 - 10.00

This will be a pre-event breakfast meeting on Day 1 of the event and is open to all delegates.

Conference Drinks Reception & Networking

Thursday 25 June 18.15 - 19.00

Please join us at this special networking event for delegates, speakers and sponsors. Your place is included in the conference fee.

Coffee Breaks and Lunches

All lunches and coffee break refreshments are provided. Please adhere to the hostesses requests to ensure that queues are kept to a minimum. Please return to the conference sessions promptly at the end of each break to ensure that sessions do not over-run.

Identification

Please wear your badge throughout the day as a courtesy to other delegates and to help us to find you if we need to contact you.

Breakout Sessions

The daily programme includes both plenary and breakout sessions. Please refer to your Conference Planner upon arrival at the event to identify the breakout sessions you wish to attend. You do not have to book into these breakout sessions beforehand.

Speaker Presentations

Out of courtesy, please turn off your mobile phone during the sessions. Shortly after the conference you will be contacted by email with details of how to download the presentations.

Delegate Comfort

If you experience any difficulty in seeing the screen or hearing the speaker or find the room too hot or cold, please let a conference member of staff know immediately and we will do our best to correct it.

Internet Connection

Free of charge WiFi connection will be available in the main plenary and network meeting area. Please request your WiFi access code at the registration desk.

Evaluation Form

A printed evaluation form will be available in your delegate pack and we will also email it to you after the event. Please return the form to either the registration desk on-site or post it to the address specified as your feedback is extremely valuable and will be used to progress this event in the future.

Please note that all information contained in the Conference Planner was correct at the time of going to print. The organisers cannot be held responsible for any alterations to the programme after its publication

09.30 Registration, Coffee & Network Meeting Area

10.30 WELCOME AND MORNING KEYNOTE SESSIONS **The Auditorium**

- **Introductions, Scene-Setting and Opening Comments**
 - Conference Chair: David Goodman, Chairman, eema, UK
- **Welcome Address**
 - June Leung, Senior Manager of Security and Business Recovery, FundSERV Inc. and Chair, OASIS IDTrust Member Section Steering Committee, USA
- **Market Overview: eIdentity Comes of Age**
 - Kim Cameron, Chief Architect of Identity, Microsoft, USA
- **Keynote:**
 - Howard Schmidt, President of the Information Security Forum and President and CEO of R & H Security Consulting LLC, UK
- **Keynote: Identity in a Cloud**
 - Tim Brown, VP and Chief Architect for Security Management, CA, Inc., UK
- **Keynote: Identity and Privacy; Policy, Governance, Barriers and Compliance**
 - Mary Ellen Callahan, Chief Privacy Officer, U.S. Department of Homeland Security, USA

12.30 Lunch Break and Networking

13.45 CONCURRENT BREAKOUT TRACKS

Choice of **two** interactive breakout tracks (interchangeable throughout the day)

- eema Track, SESSION A **Auditorium 2****
- Chaired by Ronny Bjones, Microsoft, Belgium
 - > **Getting to Grips with National eID Interoperability**
 - **Authentication Procedures for eID/eGovernment-Services in Europe, an overview and outlook**
 - Detlef Hühnlein, SECUNET Security Networks AG, Germany and Detlef Houdeau, Infineon, Germany
 - **Architecture and Interface Specifications for Cross-Border eSignature**
 - Jon Ølnes, Difi, Norway
 - **STORK as part of the European Strategy to Overcome Interoperability Difficulties in Relation to the Member States' eID Schemes**
 - Herbert Leitold, A-SIT, Austria
 - **eRecognition Agreements Scheme for Business to Government, a growth model in the Netherlands**
 - Theo Hooghiemstra, ICTU, Netherlands

OASIS Track, SESSION B

Auditorium 1

- > **Complexity of Protecting Personal Identity and Achieving Security, Privacy and Trust**
- **Information Privacy and Standards Development**
 - John Sabo, CA, Inc., USA
- **Digital Signatures and e-Identity: Getting the Best Out of Digital Signature Services (DSS)**
 - Andreas Kuehne, Trustable Ltd. and Member of OASIS DSS-X Technical Committee, Germany
- **National Identity Card Defenses and Your Privacy**
 - Giles Hogben, European Network & Information Security Agency (ENISA), Greece
- **IdM Market Update**
 - Gerry Gebel, Burton Group Identity and Privacy Strategies, USA

15.45 Tea / Coffee Break and Networking

16.15 CONCURRENT BREAKOUT TRACKS

Choice of **two** interactive breakout sessions (interchangeable throughout the day)

eema Track, SESSION C **Auditorium 2**

- Chaired by Nader Henien, Research In Motion, Egypt
- > **Getting to Grips with Mobile eID**
- **Perfect Storm: How Mobile and Contactless Technologies will Change the Electronic Identity Landscape Permanently**
 - Dave Birch, Consult Hyperion, UK
- **Secure SOA-Based mGovernment Systems Based on JAVA Mobile Application**
 - Milan Markovic, Mathematical Institute, SANU, Serbia
- **Best Practices in Launching Mobile eIdentity**
 - Antti Vihavainen, Valimo, Finland

OASIS Track, SESSION D

Auditorium 1

- > **Challenges with eIdentity and Authentication on a Global Level**
- **Lowering Implementation Costs through Global Collaboration**
 - Soren Peter Nielsen, Danish Ministry of Science, Denmark
- **ID Cards - New Game for Governments**
 - Bob Carter, Identity and Passport Service, UK
- **Driving Uptake of a Shared Government Authentication Service**
 - Bill Young, Government Technology Services, New Zealand

18.15 Close of Day One Conference

18.15 CONFERENCE COMPLIMENTARY DRINKS RECEPTION AND NETWORKING

Special networking event for delegates, speakers and sponsors

08.45 Registration, Coffee & Network Meeting Area

09.00 CONCURRENT BREAKOUT TRACKS

Choice of **three** interactive breakout tracks (interchangeable throughout the day)

eema Track, SESSION E Auditorium 2

- Chaired by Robert Garskamp, Everett, Netherlands

> Identity and Access Management (IAM)

- **How can your Identity and Access Management (IAM) Project be Delivered on Time and Budget**
- Stuart Hodkinson, Courion, UK
- **Using Privacy Impact Assessments to Manage Risk and Reputation**
- Aaron Martin, LSE, UK
- **The Use of eID for Two-factor Authentication: Challenges and Opportunities**
- Frederik Mennes, Vasco Data Security, Belgium

OASIS Track, SESSION F Auditorium 1

> Securing Your Enterprises: Real World Scenarios

- **Context Aware Security with Identity and Policy**
- Rakesh Radhakrishnan, Sun Microsystems, USA
- **SOA Security and XACML**
- Dr. Theo Dimitrakos, BT Innovate, UK
- **Attribute-Based Access Control and Attribute Management**
- Dr. Babak Sadighi, Axiomatics AB, Sweden

Sponsor Sessions Meeting Room 5

9.30 - 10.00 Session 1 hosted by CoreStreet

> Taking Trusted Credentials One Step Further

Once an Identity is established and trusted for everyday use, the question is, where do we go from here? The ability to associate skill sets and qualifications from sources other than the issuer allows the identity to be used beyond the traditional, connected world. This presentation will focus on the ability to associate dynamic off-card attributes for use in mobile applications while relying on long-lived identity information from the card.

- John Bys, CoreStreet, USA

10.00 - 10.30 Session 2 hosted by Research In Motion

> eidentity and Authentication in the Mobile Space

Smartphones are quickly becoming a standard part of our professional and personal lives. How do we extend eidentity to the smartphone and effectively authenticate the user? This presentation will focus on the differences of eidentity and authentication in the mobile space.

- Tim Segato, Research In Motion, Canada

10.30 Tea / Coffee Break and Networking

11.00 CONCURRENT BREAKOUT TRACKS

Choice of **two** interactive breakout sessions (interchangeable throughout the day)

eema Track, SESSION G Auditorium 2

- Chaired by Arkadiy Kremer, RANS, Russia

> Securing Identity

- **Open Infrastructure for Secure Communication and Secure Usage of Digital Identities across Administrative Borders**
- Jörg Apitzsch, Bremen Online Services, Germany
- **Secured Identity, the Next Disruptive Technology in IT Security**
- Olivier Guilbert, OpenTrust, France
- **ICAO Master Lists and Passport Verification using PKI**
- Steve Kille, Isode, UK
- **European Large Scale Action (ELSA) on future eID infrastructure - A new EU initiative**
- Florin Lupescu, ICT Addressing Societal Challenges, DG INFSO, European Commission

OASIS Track, SESSION H Auditorium 1

> Attribute

- **Tao of Attributes**
- Nicole Harris, JISC, UK

> Key Management

- **KMIP: The Latest in Key Management**
- Anthony Nadalin, Microsoft Corporation, USA

> OpenID

- **What NIST Levels of Assurance is OpenID Appropriate for?**
- John Bradley, ooTao Inc., USA

12.30 Lunch Break and Networking

13.30 CONCURRENT BREAKOUT TRACKS

Choice of **two** interactive breakout sessions (interchangeable throughout the day)

eema Track, SESSION I Auditorium 2

- Chaired by Jon Shamah, BBS, UK

> A Perspective of Identity in the Cloud - the Issues and Possible Solutions

- **Challenges of Secure Collaboration in the Cloud and Developing Best Practices to Deal with them**
- Paul Simmonds, Jericho Forum, UK
- **The Future of Identity in the Cloud: Requirements, Risks and Opportunities**
- Marco Casassa Mont, Hewlett Packard Ltd, UK
- **Identity Service Provider 'In the Cloud'**
- Sandy Porter, Avoco Secure, UK

OASIS Track, SESSION J Auditorium 1

> Identity Metasystems Roundtable: Where we are Going, Obstacles and Advancements

- John Bradley, ooTao Inc, USA and Anthony Nadalin, Microsoft Corporation, USA and Drummond Reed, Information Card Foundation, USA

15.00 Tea / Coffee Break and Networking

15.30 CONCURRENT BREAKOUT TRACKS

Choice of **three** interactive breakout sessions

eema Track, SESSION K Auditorium 2
 Chaired by Martin Linda, Siemens IT Solutions & Services GB&I, UK

> **Federated Identity**

- **Global Corporate Identification**
 - Stephen Lord, EasyNumber Company, France
- **Identity Federation in Government – An Opportunity for Privacy Enhancement?**
 - Colin Robbins, Nexor, UK
- **Combining PKI and Identity Management as an Aid to Federated Identity**
 - Klaus Schmeh, Cryptovision, Germany

OASIS Track, SESSION L: Auditorium 1

> **Open Standards and Cloud Computing**

- **Identity in the Cloud**
 - Gerry Gebel, Burton Group Identity and Privacy Strategies, USA
- **Using Topic Maps and the Cloud to Deliver Business Lines**
 - John Borrás, Pensive SA, UK
- **Cloud Security and Identity**
 - Giles Hogben, European Network and Information Security Agency (ENISA), Greece
- **Key Cloud Security Issues**
 - Sean Catlett, Founding Member of the Cloud Security Alliance & Barclays, UK

2nd STORK Industry Group Meeting, SESSION M:
 Park Plaza Victoria, 239 Vauxhall Bridge Road, London

> **Welcome and Introduction to STORK**

- Vasilis Koulolias, Gov2U, Greece
- **eID and Upcoming Technologies**
 - Herbert Leitold, A-SIT, Austria
- **European Perspective on Next Generation eID Infrastructure: eID European Large Scale Action (ELSA) and STORK**
 - Florin Lupescu, DG INFOS, European Commission, Belgium
- **eID and Common Specifications**
 - Marc Stern, FEDICT, Belgium
- **Questions and Group Discussion on ELSA and STORK**
- **Wrapping Up and Next Steps**

17.30 Close of Conference

NOTE: Please note that this programme is subject to change.

■ eema

Established in 1987, eema is an independent association of IT professionals, businesses and governments, providing business and technical networking opportunities at both local and regional levels in the broad areas associated with digital identity and its applications, including security. We enable members to share experiences and best practice by holding meetings and conferences, by facilitating working groups who produce reports on topical subjects, and by helping members to connect with the right person to help them solve business issues or develop beneficial business relationships. All work produced by members is available free to other members. Previous papers include: Towards Understanding Identity, Role Based Access Control – a Users Guide and Secure e-mail within a Corporate Environment.

www.eema.org

Tel: +44 (0)1386 793028

contact@eema.org

■ Everett

Everett is an international consulting firm, systems integrator and solution support services provider specialised in Identity & Access Management solutions and delivering its services to more than 150 enterprise customers, government agencies and educational institutions within the EMEA region.

Everett has offices in the Netherlands, the United Kingdom, Italy and India. Everett's inspiration is connecting individuals and ICT services in a secure, personalised and user-centric way.

Visit www.everett-uk.com for additional information.
